

The design of the logos

...to be printed, cut off or built (even in wood).

A new image for Pinocchio

Design concept

Contained in a "starting kit" box (virtually, in "a piece of wood") the components may be put together, to give Pinocchio life and animation...

Pinocchio's parts (anatomy)

Body (as was born)

- Head & face
- Arms & hands
- Trunk
- Legs & feet

Body (metamorphosis)

- Prolonged nose
- Donkey ears
- Human ears

Clothes (for "social life")

- Suit (with "flower")
- Short trousers
- Tiny cap

Pinocchio's parts acting, animating...

a playful character that may talk... look upwards... be hanged... leap, run, escape from assassins... bow and introducing himself... and live, and show up.
